

Tutoring SOS

K-5th Grade

Every Wednesday

3:30 – 6:30 p.m.

Free tutoring

Free meal

We started this program because we wanted to help students keep up with their classes and improve their grades. We want all students to succeed in the classroom which is why our program focuses on helping students learn better as well as helping them make good decisions inside and outside the classroom through mentoring.

Our tutors help the students with homework, good attitudes, and decisions about school. We provide good money management skills through our “Bonus Bucks” system which rewards behavior, attendance, and school grades. We end our tutoring Sessions with a warm and nutritious meal.
